Kristi Dinner,
Company kd llc

GET TO KNOW:

Accomplished, creative, and down-to-earth are probably

the best ways to describe Kristi Dinner, the founder of Company kd. Not only can she transform a closet into a nursery or create an impressively pimped-out kitchen, Dinner also shines by making clients' homes an

expression of them. Focusing on color and classic looks, Dinner eschews the trends and creates a material world that reflects the individuality of those who inhabit it.

DESIGN PHILOSOPHY: "I strive to create interiors that celebrate the authenticity of my clients' personalities...and bringing to the project a sense of grace, a sense of wow, and that extra something that is unexpected."

VITALS: 303-355-1840; www.companykd.com

CLIENT: Pam Newman

LOCATION: Congress Park

INSPIRATION: "When Pam and I first began working on design projects in her home, we instantly bonded over our mutual love for traveling in Asia, particularly because of our great admiration for Japanese architecture and design. These motifs were unquestionably the inspiration for the look and feel, as seen through the material choices of woods, tile patterns, and cabinet design details. The custom shoji panels open onto a beautifully landscaped Japanese garden."
